CERTIFIED BROWSERS

Oracle certifies multiple browsers and browser versions for use with PeopleSoft applications. As web-based technologies evolve, modern browsers quickly incorporate support for the latest technological advances. Oracle maintains its commitment to the successful and intelligent incorporation of proven advanced internet technologies into each successive release of PeopleTools, the foundation of all PeopleSoft applications.

Important! Oracle has simplified its browser certification policy. Beginning with PeopleTools 8.50, we now document the *minimum release* for Google's Chrome browser and Mozilla's Firefox browser available through the rapid release (RR) model. In addition, we document the *minimum release* for the Firefox browser available as Mozilla's extended support release (ESR). Following each PeopleTools general availability (GA) release, as each new release for these browsers comes out, *that* release will become the single release supported with the PeopleSoft applications under this simplified policy. For more information on this policy, see Oracle Tech Update Document 1426385.1.

The following table lists the browsers and versions certified at the time of general availability release of the current version of PeopleTools:

Description	Chrome			Firefox			Internet Explorer				Safari		
	24.x[1]	35.x[1]	4.4x[2]	17.x[1,3]	24.x[3]	30.x[1]	8.x	9.x	10.x	11.x	5.x	6.x	7.x
PeopleTools 8.54	NA	X	X	NA	X	X	NA	X	X	X	NA	X[4]	X[5]

---

[1] Rapid Release (RR) version.
[2] Chrome for Android 4.4x is supported for Android mobile devices only.
[3] Extended support release (ESR) version.
[4] This version of Safari is supported by OS X only.
[5] This version of Safari is supported by both OS X and iOS.
